

```

1 //藍芽 AT 模式設定程式 藍芽"KEY"接 3.3V
2 //Arduino pin 8 接藍芽"TX",Arduino pin 9 接藍芽"RX"
3 #include <SoftwareSerial.h>
4 SoftwareSerial BTSerial(8,9); //RX|TX
5 void setup()
6 {
7     Serial.begin(38400);
8     Serial.println("Enter AT commands:");
9     BTSerial.begin(38400);
10 }
11 void loop()
12 {
13     if (BTSerial.available())
14         Serial.write(BTSerial.read());
15     if (Serial.available())
16         BTSerial.write(Serial.read());
17 }

```
